OBJECTIVE

Aspiring Frontend Developer with expertise in React.js, Tailwind CSS. Passionate about building responsive, user-friendly web applications and contributing to innovative projects while continuously growing in the field.

EDUCATION

Poornima College of Engineering   Jaipur, Rajasthan
Bachelor of Technology – Information Technology   *2023 – 2027*
K.M.D Public School   Jaipur, Rajasthan
Class 12th – R.B.S.E   *2021 – 2023*

PROJECTS

Virtual Herbal Garden | *React.js, Firebase, Cosmocloud*

- Built an interactive platform showcasing virtual plants and their medicinal benefits.
- Integrated backend with Firebase Firestore for seamless data handling.
- Optimized user experience with responsive design and intuitive UI.

Crowdfunding on Flow | *Flow Blockchain, Solidity, React.js*

- Developed a decentralized crowdfunding platform leveraging smart contracts on Flow blockchain.
- Implemented secure transactions and campaign management with account abstraction.
- Among top 3 projects at Co-Learning Camp 11, competing with 250+ participants.

Tech Bazaar – E-Commerce Platform | *React.js, Firebase, Tailwind CSS*

- Built an e-commerce platform for students to buy/sell second-hand technical goods.
- Implemented real-time database features using Firebase Firestore.

Solarverse – AI Chatbot | *HTML, CSS, JavaScript, GAIA AI*

- Developed an AI-powered chatbot for personalized solar energy recommendations.
- Designed a user-friendly web app to promote renewable energy awareness.

ACHIEVEMENTS

3rd Place – HackQuest Co-Learning Camp 11: Among 250+ participants, recognized for innovative Web3 solutions.

2nd Prize – TEK CONNECT 2024 (Rajasthan): Awarded among 1,000+ participants.

Best Project – Med Tech Track – Cosmocloud Hackathon: Medical technology innovation.

TECHNICAL SKILLS

Languages: C, C++, JavaScript
Frameworks: React.js, Tailwind CSS
Tools: Git, Firebase, VS Code
Soft Skills: Teamwork, Leadership, Problem-Solving

EXTRACURRICULAR ACTIVITIES

Participated in various real-life and virtual hackathons.

Core Team Member, HackitSapian: Organized hackathons, managed participants, and fostered innovation.
